RAGHAV MEHTA

DevOps Engineer

A DevOps Engineer with strong expertise in designing, implementing, and optimising continuous integration, continuous delivery (CI/ CD) pipelines, and automating infrastructure deployment. Strong communicator and problem solver who fosters a culture of continuous improvement.

EMPLOYMENT HISTORY

Nov 2021 - Present — **DevOps Engineer**
TATA Power, Pune

- Collaborating with coworkers to conceptualize, develop, and release software.
- Conducting quality assurance to ensure that the software meets prescribed guidelines.
- Rolling out fixes and upgrades to software, as needed.
- Securing software to prevent security breaches.
- Reviewing customers' feedback to enhance user experience.
- Suggesting alterations to workflow to improve efficiency and success.

Jul 2018 - Oct 2021 — **Junior DevOps Engineer**
Salvatore Industries, Pune

- Assisted in the design, implementation, and maintenance of CI/ CD pipelines to ensure smooth and automated software builds, tests, and deployments.
- Collaborated with team members to identify repetitive tasks and contributed to automating them using scripting languages and automation tools.
- Supported provisioning and configuration management tasks for both cloud- based and on- premises infrastructure using tools like Ansible, Puppet, or Terraform.
- Contributed to creating and maintaining technical documentation related to infrastructure setup, processes, and procedures.

INTERNSHIPS

Jul 2017 - Jun 2018 — **Intern DevOps Engineer**
Crafting Technolgies, Pune

- Assisted in setting up and maintaining continuous integration and continuous delivery (CI/ CD) pipelines using tools like Jenkins, GitLab CI/CD, or others.
- Participated in the automation of build, test, and deployment processes to improve software delivery efficiency.
- Collaborated with the team to deploy and manage applications on cloud platforms.

EDUCATION

2017 — **B.Tech in Computer Science**
Indian Institute Of Technology Bombay
